

Brief for consultant re plans for Heathpark

1. Meet with working party to outline what is required
The group to discuss the area, problems, how locals feel and how the area fits in with Honiton. Heathpark has historically been rather isolated from the rest of Honiton and we would like the improvement works to encourage people from outside the area to visit the estate.
2. Identify potential ideas for improving the estate incorporating the priorities of:
 - Priority 1**
Improving the appearance of the 'Square' at St Paul's (carparking area and green space by Community Flat, 38 St Paul's Road)
 - Priority 2**
Improving the play areas on the estate particularly the area by St Marks/top play areas
 - Priority 3**
Providing allotment spaces on the estate (involving the town council).
3. Produce plans and costings for the above, broken down into different areas of work so it doesn't all have to be done/funded at the same time.
4. Attend further meeting of working group to discuss plans.
